

## SeNT Referral System CLINICAL AREAS & ISSUES / CONDITIONS

The following provides a summary of the Clinical Areas and Issues / Conditions within the SeNT Referral System.

The eReferral algorithm requires the GP to identify the Clinical Area the patient requires care in and the condition / issue that they are experiencing.

This guide provides a summary of the clinical areas and the issues/conditions as of June 14th 2016.

N.B. Issues /conditions were sourced from HealthPathways ([www.hne.healthpathways.org.au](http://www.hne.healthpathways.org.au)).  
You can find pathway information through searching relevant clinical area.

### Colorectal
