Ante-natal Update

Date: Thursday 22nd September 2016
Time: 6.30pm Registration and buffet meal, 7.00pm Start, 9.20pm Close
Venue: Mingara Recreation Club, Mingara Drive Tumbi Umbi
Cost: nil

To provide information on latest clinical evidence in management of obesity in pregnancy, pregnancy induced hypertension, vitamin deficiencies in pregnancy, and how GPs can use Healthpathways when providing antenatal care.

Topics covered:
- “Get Healthy in Pregnancy”
- Vitamin D in pregnancy and supplementation
- Pregnancy Induced Hypertension (PIH)
- Case study – Ante-natal care and Healthpathways
- “Sharing the Caring” – Ante-natal Shared Care redesign project update
- Q & A Session - The panel will include your local Staff Specialist Obstetrics and Gynaecology, Obstetrics and Gynaecology Registrar, GP, Health Promotion Officer, Acting Clinical Midwifery Consultant

Learning Objectives
1) Participants will be able to identify risk factors for pregnancy induced hypertension (PIH), the signs and symptoms of PIH, and have the knowledge to refer or treat as appropriate.
2) Participants will be able to identify signs of poor nutrition in pregnancy and have the knowledge to refer or treat as appropriate.
3) Participants will be aware of the changes to the current GP Antenatal Share Care on the Central Coast
4) Participants will increase their understanding of the Healthpathways resource, and how they can use this resource to inform their antenatal care.
